

Research Assistant (m/f/d)

Our Profile

We are an internationally oriented chair that focuses on topics at the interface between innovation, human resource management and technology. Our goal is to combine a high scientific level with proximity to business practice. We offer you the integration into a committed team, an exciting and diversified job, intensive scientific and personal further education as well as the opportunity to pursue a doctorate.

Your Profile

If the following characteristics apply to you, you are exactly right in our team and we are looking forward to your application!

- Very good master's degree in (Business) Informatics, (Business) Mathematics, Engineering, Industrial Engineering, Business Administration, Medicine or Psychology
- Interest in scientific work and empirical research
- Open and communicative appearance
- Very good written and spoken German and English skills
- High resilience and flexibility
- Strong analytical and conceptual skills
- Initial experience in conducting experimental studies would be an advantage
- Ability to work independently and in a structured manner

Opportunity for further qualification (doctoral dissertation) is given. The fulfillment of the duties likewise enables the scientific qualifications of the candidate.
