

Full Stack Developer (m/w/d) – Full-Time wanted immediately

Are you ready to drive technical innovation in full stack development and create innovative solutions that shape the future of work? Then you've come to the right place!

About us

The leap in time Lab (www.leap-in-time.com) is a dynamic and innovative research center in Darmstadt, known from the press and a spin-off of the Technical University of Darmstadt. Since our founding in 2013, we have been developing future working environments and applications in the fields of artificial intelligence and human-robot interaction for our customers.

Your Mission

As a Full Stack Developer at leap in time Lab, you will

- work with the latest technologies and AI applications and translate them into innovative and practical solutions,
- work in agile project teams to develop efficient and scalable software products.
- design and further develop the system architecture of our innovative research platforms,
- create both front-end and back-end systems based on high performance and ease of use,
- develop interfaces to external APIs and implement integrations,
- integrate secure authentication methods to ensure privacy and data security,
- cover the entire software development lifecycle, from ideation to development and deployment, and
- maintain, optimize and extend existing web applications.

Your profile

If the following characteristics essentially apply to you, then our team is the right place for you:

- Successfully completed training as an IT specialist or a comparable course of study.
- In-depth knowledge and hands-on experience with REST APIs and containerization with Docker.
- Good knowledge of the programming languages Python, JavaScript as well as web technologies such as HTML and CSS.
- Experience in working with software version control systems (e.g. GitLab).
- Proven ability in frontend and backend development.
- Fluent in German and English, both written and spoken.
- The ability to work both independently and in a team.
- Experience in agile software development.

We offer

- Inspiring working environment that bridges the gap between theory and practice – right in the middle of Darmstadt!
- An open and creative team that values your ideas and personal development.
- The opportunity to make a difference and help shape a young company.
- Working with state-of-the-art technologies.
- Unique projects in the field of robotics and AI.
- Comprehensive and continuous professional development.
- Flexible working hours.
- Remote work by arrangement.
- Mobility through to the 49€ ticket.
- Capital-forming benefits, if applicable.

Are you ready for a leap in time?

Then send us your complete application documents including letter of motivation, curriculum vitae, current transcript of records / relevant certificates, stating your salary expectations and the earliest possible starting date by e-mail by **February 20, 2024** to:

info@leap-in-time.com

*We look forward to working with you
to shape the future of work!*
