

Topic	Could you Please Bring me a Cappuccino and the Status Report from last Week, Mr. Robot? – Evolution and Future Potentials of Various Team Roles in a Business Context
Overview  	<p>Many jobs are experiencing a major shift in the skills and core capabilities required for the future. These changes do not stop at "classic" office jobs such as team assistance, PMO, or team leader.</p> <p>We want to take a closer look at how various jobs (e.g., team assistant, PMO, and team leader) are changing , e.g., due to the incorporation of new technologies, specifically humanoid and android robots.</p> <p>Exemplary research questions are:</p> <ul style="list-style-type: none"> • What are the key competencies of various team roles today? • Which of these competencies will be needed in the future? • How could humanoid or android robots support these jobs? <p>The various questions should be answered within the scope of a literature review.</p>
Language	English preferred
Additional information	Start: as soon as possible Kind of thesis: Master thesis, "Studienarbeit" Requirements: interest in topics on the interface between humans and robot in an organizational context Main subject: Psychology or business background preferred
